¹ The Prospectus is available from the Managers (whose operating address is at 80 Raffles Place, 3rd Storey, UOB Plaza 2, Singapore 048624) or through their authorised agents or distributors during their respective business hours, or through the Managers' website at uobam.com.sg.

<ul style="list-style-type: none"> • The investment process involves identification of areas of innovation and high potential for growth within their industries selected based on rigorous bottom-up fundamental research, in addition to consideration of the impact of macroeconomic trends, such as consolidation, regulation, and industry convergence, that can influence future investment returns. The investment strategy for the Sub-Fund focuses on a long time horizon (up to 10 years) as many of the investment themes may be nascent and take time to develop. • The Sub-Fund may invest in other securities including, without limitation, exchange-traded funds and equity-related securities such as depository receipts. The Sub-Fund will invest in an unconstrained manner and may at times be concentrated by geographical region or industry sector. The Sub-Fund may also invest in securities of small and mid-market capitalisation companies, as well as large market capitalisation companies and the Sub-Fund characteristics may vary widely as investment themes and stock selections change. • The Sub-Fund is actively managed without reference to a benchmark. 	
Parties Involved	
<p>WHO ARE YOU INVESTING WITH?</p> <ul style="list-style-type: none"> • The Managers are UOB Asset Management Ltd. • The Sub-Manager is Wellington Management Singapore Pte Ltd. • The Trustee is State Street Trust (SG) Limited. • The Custodian is State Street Bank and Trust Company, Singapore Branch. 	<p>Refer to paragraphs 2, 3 and 19.4 of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.</p>
KEY RISKS	
<p>WHAT ARE THE KEY RISKS OF THIS INVESTMENT? The value of the Sub-Fund and its distributions (if any) may rise or fall. These risk factors may cause you to lose some or all of your investment:</p>	<p>Refer to paragraph 7 of the Prospectus and paragraph 5 of Appendix 2 of the Prospectus for further information on risks of the product.</p>
Market and Credit Risks	
<ul style="list-style-type: none"> • You are exposed to market risk. Prices of the securities that the Sub-Fund invests in may be affected by changes in economic conditions, interest rates and the market's perception of the securities, which in turn may affect the value of your investment. • You are exposed to equity securities risk. The Sub-Fund invests in stocks and other equity securities that historically have greater price volatility than bonds and other fixed income securities. 	
Liquidity Risks	
<ul style="list-style-type: none"> • The Sub-Fund is not listed and you can redeem only on Dealing Days. There is no secondary market for the Sub-Fund. All realisation forms should be submitted to the Managers' authorised agents or distributors. • You are exposed to liquidity risk. Investments by the Sub-Fund in some Asian and/or emerging markets often involve a greater degree of risk due to the nature of such markets which do not have fully developed services such as custodian and settlement services. There may be a greater degree of volatility in such markets because of the speculative element, significant retail participation and lack of liquidity. 	
Product-Specific Risks	
<ul style="list-style-type: none"> • You are exposed to foreign exchange / currency risk. Where investments are denominated in a currency that is different from the currency of denomination of the Sub-Fund or the relevant Class, fluctuations of the exchange rates of such currencies against the currency of the Sub-Fund or Class may affect the value of Units. The Managers may hedge the foreign currency exposure of the Sub-Fund or Class and may adopt an active or passive currency management approach. Where a Class is not denominated in SGD, changes in the exchange rate between SGD and the Class currency may adversely affect the value of the Units of such Class. <i>Hedged Classes:</i> The Managers currently adopt a passive hedging policy while retaining the discretion to adopt any other hedging policy. 	

- **You are exposed to small and medium capitalisation companies risks.** Investments in companies with small or medium capitalisation generally carry greater risk than is customarily associated with companies with larger capitalisation. Examples of such risks are less public information, more limited financial resources and product lines, greater volatility, higher risk of failure than larger companies and less liquidity. This may result in greater volatility in the share prices of such companies.
 - **You are exposed to derivatives risks.** An investment in a FDI may require the deposit of an initial margin and additional deposit of margin on short notice if the market moves against the investment position. If the required margin is not provided in time, the investment may be liquidated at a loss.
 - **You are exposed to concentration risk.** Concentration of investments in a relatively small number of securities, sectors or industries, or geographical regions may significantly affect performance.
 - **You are exposed to risks relating to distributions.** Dividend/interest income may be adversely affected by e.g. investee entities suffering unexpected losses and/or paying lower than expected dividends, and currency fluctuations. Distributions from capital may reduce part of your original investment and result in reduced future returns. Distributions (out of capital or otherwise) may have the effect of lowering the NAV of the Sub-Fund or the relevant Class.
- You should be aware that the Sub-Fund may be exposed to other risks of an exceptional nature from time to time. You should also refer to the Prospectus for other risks which the Sub-Fund may be exposed to.**

Prices of Units will generally be published 2 Business Days after the relevant Dealing Day in local or foreign publications such as The Straits Times and The Business Times, and on the Managers' website at uobam.com.sg or any other website designated by the Managers. Prices may also be obtained from authorised agents and distributors of the Managers or by calling the Managers' hotline from 8 a.m. to 8 p.m. daily (Singapore time). To mitigate the effect of dilution and protect investors' interest, the Sub-Fund may apply a technique known as swing pricing as part of its valuation policy.

HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

- You can exit the Sub-Fund on any Dealing Day by submitting a realisation form to the authorised agent or distributor of the Managers through whom you originally purchased Units. If applicable to you and you wish to exit the Sub-Fund within the cancellation period of 7 calendar days from the time of your subscription, you may do so by submitting a cancellation form and you will not incur the subscription fee and fees stated above. However, you will have to take the risk of any price changes in the NAV of the relevant Class of the Sub-Fund since your subscription and pay any bank charges, administrative or other fee imposed by the relevant agent or distributor.
- The Managers may limit the total number of Units which holders of the Sub-Fund or Class may realise and which the Managers are entitled to have cancelled on any Dealing Day to 10% of the total number of Units relating to the Sub-Fund or such Class then in issue.
- You will normally receive the realisation proceeds within 7 Business Days from the Dealing Day on which your realisation form is received and accepted.
- The realisation price of your Units is determined as follows:
 - o If you submit the realisation form by 3 p.m. Singapore time on a Dealing Day, you will be paid a price based on the NAV of the relevant Class of the Sub-Fund as at the Valuation Point of that Dealing Day.
 - o If you submit the realisation form after 3 p.m. Singapore time on a Dealing Day or on a day not being a Dealing Day, you will be paid a price based on the NAV of the relevant Class of the Sub-Fund as at the Valuation Point of the next Dealing Day.
- The net realisation proceeds that you will receive will be the realisation price of the relevant Class of the Sub-Fund multiplied by the number of Units realised, less any charges. An example is as follows:

1,000.00 Units	x	S\$0.900	=	S\$900.00
Your realisation request		Notional realisation price per Unit		Gross realisation proceeds
S\$900.00	–	S\$0.00	=	S\$900.00
Gross realisation proceeds		Realisation fee (0%)		Net realisation proceeds

Refer to [paragraphs 8.5, 10, 12 and 19.5](#) of the Prospectus and [paragraph 8 of Appendix 2](#) of the Prospectus for further information on valuation and exiting from the product.
