KEY PRODUCT FEATURES

WHAT ARE YOU INVESTING IN?

- You are investing in a collective investment scheme constituted in Luxembourg that aims to maximise total returns with an income payout focus over the medium to long term through the implementation of an actively managed investment strategy investing primarily in a diversified range of equities, listed REITs, equity-related securities, bonds and other collective investment schemes (including sub-funds of the SICAV) related to real estate and/or infrastructure companies, which are incorporated, listed in or have their area of primary activity in the Asia Pacific ex-Japan Region.
- You may receive distributions as declared by the Board of Directors on a monthly basis if you invest in a share class with a subscript DM in its name, on a quarterly basis on or around January, April, July and October if you invest in a share class with a subscript DQ in its name, on a semi-annual basis on or around April and October if you invest in a share class with a subscript DH in its name and on an annual basis on or around January if you invest in a share class with a subscript DY in its name. **Distributions are not guaranteed.** The Board of Directors may at its discretion pay distributions out of either (a) income; or (b) net capital gains; or (c) capital of the Sub-Fund or a combination of (a) and/or (b) and/or (c). Such distributions will reduce the net asset value (“NAV”) of the shares. The Board of Directors may also vary the frequency and/or amount of the distributions made.

KEY RISKS

WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

The value of the product and its distributions (if any) may rise or fall. These risk factors may cause you to lose some or all of your investment:

Refer to “Risks” of the Singapore Prospectus for further information on risks of the product.

Market and Credit Risks

- **You are exposed to equity risks.** The Sub-Fund may invest in equities and will be subject to risks such as fluctuations in market prices.
- **You are exposed to interest rate and credit risks.** The Sub-Fund may invest in bonds which are subject to interest rate fluctuations and credit risks, such as risk of default by issuers.

- **You are exposed to currency risks.** Share classes which are not expressed in the Sub-Fund's base currency are subject to exchange rate fluctuations between the relevant share class and the Sub-Fund's base currency. Hedging (for a hedged share class) will not eliminate all the risk of loss due to currency fluctuations.
- **You are exposed to counterparty risks.** The Sub-Fund will be exposed to the credit risk on counterparties with which it trades and any default by such counterparty could result in substantial losses to the Sub-Fund.

Liquidity Risks

- **The Sub-Fund is not listed and you can redeem your shares only on Business Days.** There is no ready secondary market for the Sub-Fund. All redemption requests should be submitted in the manner set out in the Singapore Prospectus.
- **You are exposed to liquidity risks of the Sub-Fund's investments and your redemption request may be deferred or suspended.** The Sub-Fund may have investments which have high liquidity risks (for example, low trading volumes) and may incur substantial losses if it is unable to sell these investments at opportune times or prices. Under certain circumstances (not limited to the liquidity of the underlying investments in the Sub-Fund) as detailed in the Singapore Prospectus, your redemption request may be deferred or suspended.

Product-Specific Risks

- **You are exposed to derivatives risks.** The Sub-Fund may use derivative instruments, for efficient portfolio management and/or hedging purposes. Derivatives involve risks different from, and, in some cases, greater than, the risks presented by more traditional securities investments. Some of the risks associated with derivatives are market risk, management risk, credit risk, liquidity risk, operational risk and leverage risk.
- **You are exposed to the risks from the Sub-Fund investing in bonds below investment grade or are unrated.** In particular, high yield bonds may subject the Sub-Fund to higher credit/default risks, volatility and liquidity risks than investment grade bonds.
- **You are exposed to emerging markets risks.** The Sub-Fund may invest in emerging markets which generally carry greater political, legal, tax, and regulatory risks than more developed markets.
- **You are exposed to the risks associated with investments in real estate investment trusts and securities of real estate-related companies.** Investments in a specific sector means a more concentrated approach to investments is taken, therefore there is greater than usual risk.
- **You are exposed to risk of investing in China A-shares through China-Hong Kong Stock Connect Programmes.** The Sub-Fund may invest in China A-Shares through the China-Hong Kong Stock Connect Programmes which are subject to regulatory change, quota limitations and also operational constraints which may result in increased counterparty risk.
- **You are exposed to risk of investing via China market access schemes (such as CIBM Direct Access Program and Bond Connect).** These market access schemes are subject to regulatory change, quota limitations and also operational constraints which may result in increased counterparty risk.
- **You are exposed to securities lending risks.** The Sub-Fund may enter into securities lending transactions, which exposes the Sub-Fund to certain operational, liquidity, counterparty, custody and legal risks.

Refer to “No Right of Cancellation of Subscription by New Investors”, “Redemption of Shares” and “Obtaining Prices of Shares” of the Singapore Prospectus for further information on valuation and exiting from the product.

³ The Management Fee is retained by the Manager and/or the Investment Manager, as may be agreed between the parties.

- The redemption proceeds that you will receive will be the redemption price multiplied by the number of shares redeemed, less any charge. There is currently no redemption charge applied to redemptions. An example is as follows:
