### COMMENTARY

#### Market

Global equities fell by double-digits in US dollar terms over the year. The war in Ukraine, which began with Russia's invasion of the country in February 2022, has had grave humanitarian consequences. It also pushed commodity prices higher and resulted in elevated inflation across the world, which was exacerbated by the supply chain issues stemming from China and its various lockdown regulations. Monetary policy was tightened across emerging and developed countries, which weighed on the global growth and trade outlook, and the dollar strengthened, which was an additional headwind for Brazil, India and China markets. The MSCI BRIC Index posted a negative return over the year, performing in line with the MSCI Emerging Markets Index but underperforming the MSCI World Index.

Russian equities fell sharply in the run up to, and in the aftermath of, the invasion of Ukraine on 24 February. Russia was removed from the MSCI Emerging Markets Index on 9 March at an effective price of zero.

China finished the year behind the index as COVID lockdowns – part of the country's zero-COVID policy – hampered economic activity. A crisis in the property sector relating to overindebted property developers also weighed on sentiment. More recently, however, authorities have implemented measures to support the ailing property sector, pivoted on their zero-COVID policy and re-opened the economy. This helped Chinese equities rally into year-end. China's economy has proved relatively resilient, posting better than expected performance during Q4: annual GDP growth was 2.9% in Q4, taking the full year figure to 3%.

India outperformed, even as the central bank raised rates by about 300bps during the year and energy prices rose (India is a net energy importer).

Brazil posted strong returns in 2022 although, following Lula's return to power in the October presidential election, the market struggled to make headway amid uncertainty about the new administration's fiscal policies.

#### Fund

The Fund recorded a negative return and performed in line with the MSCI BRIC 10-40 Index on a gross underlying basis.

Russia detracted from relative performance over the period. Schroders has valued all Russian equity holdings at zero since 3 March 2022, and MSCI removed Russia from its indices on 9 March 2022.

Outside of Russia, the underweight to China, and the off-benchmark allocation to Argentina, weighed on returns. Conversely, our overweight to Brazil, and cash held in a falling market contributed positively.

Stock selection was negative, most notably in Brazil (underweight **Petrobras** and zero-weight Vale, which is not held for Sustainable Finance Disclosure Regulation reasons) and China, where the overweight positions in **Xpeng** and **Great Wall Motor** detracted. By contrast, stock selection in India was positive, owing largely to the overweight to **ICICI Bank** and zero-weight to Infosys.

### Outlook

From a global perspective, there continues to be high uncertainty over the path of growth and inflation. Disinflation is forecast to continue through the first half of the year, aided by base effects, goods price disinflation and demand pressure. US rates expectations are now reasonably elevated, although there is a risk that rates stay higher for longer than markets currently anticipate. We may also still see negative surprises for growth given the scale of monetary tightening and the lags to it taking effect. For BIC, global trade is a headwind for growth in 2023, while broad-based monetary tightening is an additional drag. However, monetary cycles in many economies are now well advanced and disinflation will ease pressure on BIC currencies and central banks.

The lifting of the Zero COVID Policy (ZCP) in China has been faster than anticipated. Domestic testing and quarantines were among the first requirements to be eased. These have been followed by a reopening of border crossings to Hong Kong SAR and a wider reopening to international visitors, with the removal of the need for testing on arrival or quarantine. Although slower global trade will be a drag on China's export sector, the end of ZCP is supportive of a recovery in domestic economic growth from a low base. It removes an impediment to the effective transmission of policy stimulus and we expect consumption to rebound, supported by pent up demand, high savings and improving employment and confidence. Other signals reinforce our view that the government's priority in the near term is growth: we have seen further support for real estate; December's Central Economic Work Conference emphasised the need to boost domestic demand and gave favourable signals with regards to private enterprise; regulatory pressure for the internet sector looks to have abated, at least for now. In addition the US Public Company Accounting Oversight Board announced that it had secured full access to inspect and audit firms in China for the first time in history; this had long been a contentious issue. While long term strategic competition with the US will continue, it appears that in the near term the Chinese government has been seeking to de-escalate tensions between the two countries.

The US dollar remains an important factor to monitor for BIC. The other side of the US dollar's recent sell-off has been a recovery in emerging market currencies. The dollar remains expensive versus history on a real effective exchange rate basis, and if the Federal Reserve expectations have indeed peaked, it may see further depreciation. A softer dollar and a fall in the US 10-year bond yield would typically support BIC currencies, yields and financial conditions. BIC yields and currencies in general remain at attractive levels, as do valuations, with the exception of India.

The global macroeconomic outlook remains weak and uncertain, with the risk of further volatility. However, the policy pivot in China brings greater conviction in a recovery in Chinese growth while, in the near term, disinflation is supporting a market rebound.

## **SCHRODER BRIC FUND**

***(a sub-fund of Schroder International Opportunities Portfolio)***

*Constituted under a Trust Deed in the Republic of Singapore on 3 January 2006*

### **REPORT OF THE TRUSTEE**

For the financial year ended 31 December 2022

The Trustee is under a duty to take into custody and hold the assets of Schroder BRIC Fund (the “Fund”) in trust for the unitholders. In accordance with the Securities and Futures Act 2001, its subsidiary legislation and the Code on Collective Investment Schemes, the Trustee shall monitor the activities of the Manager for compliance with the limitations imposed on the investment and borrowing powers as set out in the Trust Deed in each annual accounting year and report thereon to unitholders in an annual report.

To the best knowledge of the Trustee, the Manager has, in all material respects, managed the Fund during the financial year covered by these financial statements, set out on pages 9 to 29, in accordance with the limitations imposed on the investment and borrowing powers set out in the Trust Deed.

HSBC Institutional Trust Services (Singapore) Limited

## **SCHRODER BRIC FUND**

***(a sub-fund of Schroder International Opportunities Portfolio)***

*Constituted under a Trust Deed in the Republic of Singapore on 3 January 2006*

### **STATEMENT BY THE MANAGER**

For the financial year ended 31 December 2022

In the opinion of Schroder Investment Management (Singapore) Ltd, the accompanying financial statements set out on pages 9 to 29, comprising the Statement of Total Return, Statement of Financial Position, Statement of Movements of Unitholders' Funds, Statement of Portfolio and Notes to the Financial Statements are drawn up so as to present fairly, in all material respects, the financial position and portfolio holdings of Schroder BRIC Fund (the "Fund") as at 31 December 2022, and the financial performance and movements of unitholders' funds for the financial year then ended in accordance with the recommendations of Statement of Recommended Accounting Practice 7 "Reporting Framework for Investment Funds" issued by the Institute of Singapore Chartered Accountants. At the date of this statement, there are reasonable grounds to believe that the Fund will be able to meet its financial obligations as and when they materialise.

For and on behalf of the Manager  
Schroder Investment Management (Singapore) Ltd

**INDEPENDENT AUDITOR'S REPORT TO THE UNITHOLDERS OF  
SCHRODER BRIC FUND**  
**(a sub-fund of Schroder International Opportunities Portfolio)**  
*Constituted under a Trust Deed in the Republic of Singapore on 3 January 2006*

## **Our Opinion**

In our opinion, the accompanying financial statements of Schroder BRIC Fund (the "Fund") are properly drawn up in accordance with the recommendations of Statement of Recommended Accounting Practice 7 "Reporting Framework for Investment Funds" issued by the Institute of Singapore Chartered Accountants, so as to present fairly, in all material respects, the financial position and portfolio holdings of the Fund as at 31 December 2022, and the financial performance and movements of unitholders' funds for the financial year ended on that date.

### *What we have audited*

The financial statements of the Fund comprise:

- the Statement of Total Return for the financial year ended 31 December 2022;
- the Statement of Financial Position as at 31 December 2022;
- the Statement of Movements of Unitholders' Funds for the financial year ended 31 December 2022;
- the Statement of Portfolio as at 31 December 2022; and
- the Notes to the Financial Statements, including a summary of significant accounting policies.

## **Basis for Opinion**

We conducted our audit in accordance with Singapore Standards on Auditing ("SSAs"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### *Independence*

We are independent of the Fund in accordance with the Accounting and Corporate Regulatory Authority Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities ("ACRA Code") together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code.

## **Other Information**

The Fund's Manager (the "Manager") is responsible for the other information. The other information comprises all sections of the annual report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

**INDEPENDENT AUDITOR'S REPORT TO THE UNITHOLDERS OF  
SCHRODER BRIC FUND**  
**(a sub-fund of Schroder International Opportunities Portfolio)**  
*Constituted under a Trust Deed in the Republic of Singapore on 3 January 2006*

**Responsibilities of the Manager for the Financial Statements**

The Manager is responsible for the preparation and fair presentation of these financial statements in accordance with the recommendations of Statement of Recommended Accounting Practice 7 "Reporting Framework for Investment Funds" issued by the Institute of Singapore Chartered Accountants and for such internal control as the Manager determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Manager is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager either intends to terminate the Fund or to cease the Fund's operations, or has no realistic alternative but to do so.

The Manager's responsibilities include overseeing the Fund's financial reporting process.

**Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager.
- Conclude on the appropriateness of the Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

## **SCHRODER BRIC FUND**

*(a sub-fund of Schroder International Opportunities Portfolio)*

*Constituted under a Trust Deed in the Republic of Singapore on 3 January 2006*

### **NOTES TO THE FINANCIAL STATEMENTS**

*For the financial year ended 31 December 2022*

---

These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

#### **1. General**

Schroder BRIC Fund (the “Fund”) is a sub-fund of Schroder International Opportunities Portfolio, a Singapore umbrella fund constituted by a Deed of Trust dated 3 January 2006 (and as amended, restated and supplemented from time to time) (thereafter referred to as “Trust Deed”). The Trust Deed is governed in accordance with the laws of the Republic of Singapore. The Manager of the Fund is Schroder Investment Management (Singapore) Ltd and the Trustee is HSBC Institutional Trust Services (Singapore) Limited.

The Fund, which was launched on 16 February 2006, invests substantially into the Schroder International Selection Fund - BRIC (Brazil, Russia, India, China) (the “underlying fund”), whose investment objective is to provide capital growth in excess of the MSCI BRIC (Net TR) 10/40 index after fees have been deducted over a three to five year period, by investing in equity and equity related securities of Brazilian, Russian, Indian and Chinese companies. The benchmark of the underlying fund is MSCI BRIC (Net TR) 10/40.

#### **2. Significant accounting policies**

The principal accounting policies applied in the preparation of these financial statements are set out below.

(a) Basis of preparation

The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial instruments at fair value through profit or loss, and in accordance with the Statement of Recommended Accounting Practice 7 “Reporting Framework for Investment Funds” (“RAP 7”) issued by the Institute of Singapore Chartered Accountants.

(b) Recognition of income

Interest income on deposits is recognised on a time proportion basis using the effective interest method.

## SCHRODER BRIC FUND

*(a sub-fund of Schroder International Opportunities Portfolio)*

*Constituted under a Trust Deed in the Republic of Singapore on 3 January 2006*

### NOTES TO THE FINANCIAL STATEMENTS

*For the financial year ended 31 December 2022*

---

#### 2. Significant accounting policies (continued)

(c) Investments

Investments are classified as financial assets held at fair value through profit or loss. Purchases of investments are recognised on trade date. Investments are recorded at fair value on initial recognition, and subsequently carried at fair value. The fair value of investments in underlying fund is based on the quoted net asset value of the underlying fund on the reporting date. Net changes in fair value of investments are included in the Statement of Total Return in the year in which they arise.

Investments are derecognised on the trade date of disposal. Net gains or losses on investments are taken up in the Statement of Total Return.

(d) Receivables

Receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Receivables are initially recognised at their fair value and subsequently carried at amortised cost using the effective interest method, less accumulated impairment losses.

(e) Sales and purchases awaiting settlement

Sales and purchases awaiting settlement represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet settled or delivered on the statement of financial position date respectively. These amounts are recognised initially at fair value and subsequently measured at amortised cost.

(f) Bank balances

Bank balances comprise cash at banks and on hand which are subject to an insignificant risk of changes in value.

(g) Payables

Payables are recognised initially at fair value and subsequently stated at amortised cost using the effective interest method.

## SCHRODER BRIC FUND

*(a sub-fund of Schroder International Opportunities Portfolio)*

*Constituted under a Trust Deed in the Republic of Singapore on 3 January 2006*

### NOTES TO THE FINANCIAL STATEMENTS

*For the financial year ended 31 December 2022*

---

#### 2. Significant accounting policies (continued)

(h) Foreign currency translation

The Fund may hold assets and liabilities denominated in currencies other than Singapore dollars. The financial statements are presented in Singapore dollars, which is the Fund's functional and presentation currency.

Foreign currency transactions during the year are translated into Singapore dollars at the rates of exchange ruling on the transaction dates. Foreign currency monetary assets and liabilities are translated into Singapore dollars at the rates of exchange ruling at the reporting date. Foreign exchange gains or losses resulting from the settlement of foreign currency transactions and from the translation at year end exchange rates of foreign currency monetary assets and liabilities, are taken to the Statement of Total Return.

(i) Financial derivatives

Financial derivatives are recognised at fair value on the date in which a financial derivative contract is entered into and are subsequently re-measured at their fair values. Fair values are obtained from quoted market prices in active markets, including recent market transactions. A financial derivative is carried as an asset when its fair value is positive, and as a liability when its fair value is negative.

Net gains or losses on financial derivatives held for protection or enhancement of investments are taken to the Statement of Total Return as gains or losses on financial derivatives.

(j) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Fund or the counterparty.

## SCHRODER BRIC FUND

*(a sub-fund of Schroder International Opportunities Portfolio)*

*Constituted under a Trust Deed in the Republic of Singapore on 3 January 2006*

### NOTES TO THE FINANCIAL STATEMENTS

*For the financial year ended 31 December 2022*

---

## 2. Significant accounting policies (continued)

### (k) Structured entities

A structured entity is an entity that has been designed so that voting or similar rights are not the dominant factor in deciding who controls the entity, such as when any voting rights relate to administrative tasks only and the relevant activities are directed by means of contractual arrangements. A structured entity often has some or all of the following features or attributes: (a) restricted activities, (b) a narrow and well-defined objective, such as to provide investment opportunities for investors by passing on risks and rewards associated with the assets of the structured entity to investors, (c) insufficient equity to permit the structured entity to finance its activities without subordinated financial support and (d) financing in the form of multiple contractually linked instruments to investors that create concentrations of credit or other risks (tranches).

The Fund considers its investment in the underlying fund (the “Investee Fund”) to be investment in unconsolidated structured entities. The Fund invests in the Investee Fund whose objectives range from achieving short to long term capital growth and whose investment strategy does not include the use of leverage. The Investee Fund is managed by related asset managers and applies various investment strategies to accomplish its respective investment objectives. The Investee Fund finances its operations by issuing redeemable shares which are puttable at the holder’s option and entitles the holder to a proportional stake in the respective fund’s net assets. The Fund holds redeemable shares in the Investee Fund.

The change in fair value of the Investee Fund is included in the net gains or losses on investments taken up in the Statement of Total Return as described in Note 2(c).

## 3. Income tax

The Fund has been approved by the Monetary Authority of Singapore (MAS) under the Enhanced-Tier Fund (ETF) Scheme (section 13U of the Income Tax Act 1947 and the relevant regulations). Subject to certain conditions being met on an annual basis, the Fund enjoys Singapore corporate income tax exemption on “specified income” derived from “designated investments” for the life of the Fund. The tax exemption does not apply in the year when the relevant conditions are not met. Losses from “designated investments” are correspondingly disregarded. The terms “specified income” and “designated investments” are defined in the relevant income tax regulations.

#### 7. Financial risk management

The Fund's activities expose it to a variety of risks including but not limited to market risk (including price risk, interest rate risk and currency risk), liquidity risk and credit risk. The Manager does not consider these risks to be wholly identical to the risks of the underlying fund which is managed by Schroder Investment Management (Europe) SA.

The overall responsibility for the management of the Fund's financial risks lies with the Manager whom, among other things, will regularly assess the economic condition, monitor changes in market outlook and take appropriate measures accordingly to manage the Fund's exposure to these risks. The Manager may from time to time employ derivatives including but not limited to options, futures and currency forwards, subject to the terms of the Trust Deed, for the purpose of efficient portfolio management.

The data used and assumptions made in the sensitivity analyses below may not reflect actual market conditions, nor is it representative of any potential future market conditions. The sensitivity analyses can be complex and the disclosures made here are not exhaustive. The market exposures change regularly and the assumptions made below may not be representative of the risk taken throughout the year. The sensitivity analyses below should not be solely relied upon by investors in their investment decision making.

##### (a) Market risk

Market risk is the risk of potential adverse changes to the value of financial instruments because of changes in market conditions such as interest rate and currency rate movements and volatility in security prices.

At reporting date, the Fund's assets principally consist of investments into an underlying fund (as disclosed in the Statement of Portfolio) and bank balances. The investment objective of the underlying fund is disclosed in Note 1.

The Fund's investment in the underlying fund is subject to the fluctuations in the quoted net asset value of the underlying fund. Such risk is primarily managed by the respective manager of the underlying fund. The Manager monitors the performance of the Fund on a regular basis, so as to assess changes in fundamentals and valuation. The Manager may also select other financial instruments within the investment guidelines as set out in the Fund's Trust Deed.

## SCHRODER BRIC FUND

(a sub-fund of Schroder International Opportunities Portfolio)

Constituted under a Trust Deed in the Republic of Singapore on 3 January 2006

### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2022

#### 7. Financial risk management (continued)

##### (a) Market risk (continued)

COVID-19 pandemic continues to evolve and develop. The situation is dynamic with various cities and countries around the world responding in different ways to address the pandemic. As a result of the COVID-19 pandemic, global financial markets have experienced significant volatility. Given the extent of the crisis, it is difficult to estimate the impact or duration of the volatility on the portfolio of the Fund. The Manager is closely monitoring the development of the COVID-19 pandemic and its related impact.

The Fund's exposure to market risk are discussed below:

##### (i) Price risk

The table below summarises the potential impact of increases/decreases in the quoted net asset value of the underlying fund on the Fund's net assets attributable to unitholders at reporting date. The analysis is based on the assumption that the quoted net asset value of the underlying fund increases/decreases by a reasonable possible shift with all other variables held constant. This represents management's best estimate of a reasonable possible shift having regard to the historical movement in the quoted net asset value of the underlying fund in its denominated currency.

	2022		2021
Reasonable possible change	Impact on net assets attributable to unitholders	Reasonable possible change	Impact on net assets attributable to unitholders
%	\$	%	\$
11	4,932,442	11	6,696,570

The disclosure above is shown in absolute terms, changes and impacts could be positive or negative.

### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2022

---

#### 7. Financial risk management (continued)

(a) Market risk (continued)

(i) Price risk (continued)

The Manager is closely monitoring the situation with respect to securities of Russian issuers held in the underlying funds which continue to be impacted by a range of actions taken by governments, stock exchanges and counterparties, including sanctions regimes, leading to severe valuation and liquidity issues. Russian markets have been suspended, and the Manager will not be investing in Russian or Belarusian equities for the foreseeable future. The Manager will continue to apply appropriate valuation principles in accordance with its pricing processes. Because of these issues and due to the inability to transact or transfer these assets, the value of Russian securities in the underlying funds has become de minimis and the Manager expect this to be reflected until further notice in the Net Asset Value ("NAV") of the underlying funds. The Manager is currently valuing Russian equities positions at zero.

(ii) Interest rate risk

The majority of the Fund's financial assets and liabilities are non-interest bearing; as a result, the Fund is not subject to significant amounts of risk due to fluctuations in the prevailing levels of market interest rates. No interest rate sensitivity analysis is presented.

(iii) Currency risk

The Fund may hold monetary and non-monetary assets and liabilities denominated in currencies other than Singapore dollars. Consequently, the Fund may be exposed to currency risk since the value of these assets and liabilities denominated in other currencies will fluctuate due to changes in exchange rates. The Manager monitors the exposure on all foreign currency denominated assets and liabilities and may manage the currency risks by hedging some or all of the currency risk exposure through derivatives such as forward currency contracts, currency futures, currency swap agreements or currency options.

## SCHRODER BRIC FUND

(a sub-fund of Schroder International Opportunities Portfolio)

Constituted under a Trust Deed in the Republic of Singapore on 3 January 2006

### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2022

#### 7. Financial risk management (continued)

(a) Market risk (continued)

(iii) Currency risk (continued)

The following table shows the sensitivity of the Fund's monetary and non-monetary assets and liabilities to foreign currency exposure should the currency increase or decrease against the Fund's functional currency with all other variables held constant.

Currency	2022		2021	
	Reasonable possible change %	Impact on net assets attributable to unitholders \$	Reasonable possible change %	Impact on net assets attributable to unitholders \$
USD	3	1,345,225	2	1,217,571

(b) Liquidity risk

The Fund's liquidity risk arises mainly from redemptions of units. The Fund invests the majority of its assets in liquid investments.

The Fund has the ability to borrow in the short-term for the purposes of meeting redemptions and short-term bridging requirements. Dedicated personnel are responsible for monitoring the Fund's liquidity position on a daily basis to ensure that sufficient cash resources and liquid assets are available to meet liabilities as and when they fall due.

Units are redeemable at the holder's option. However, the Manager also has the option to limit redemption requests to 10% of the total number of units then in issue on each dealing day, with the approval of the Trustee.

The table below analyses the Fund's financial liabilities into relevant maturity groupings based on the remaining period at the reporting date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows. Balances due within 12 months approximate their carrying values as the impact of discounting is not significant.

	2022	2021
	Less than 3 months \$	Less than 3 months \$
Payables	39,822	67,015

## SCHRODER BRIC FUND

(a sub-fund of Schroder International Opportunities Portfolio)

Constituted under a Trust Deed in the Republic of Singapore on 3 January 2006

### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2022

#### 7. Financial risk management (continued)

##### (c) Credit risk

The Fund takes on exposure to credit risk, which is the risk that a counterparty will be unable to pay amounts in full when due, including transactions with counterparties such as issuers, brokers, custodians and banks.

Impairment allowances are made for losses that have been incurred by the reporting date, if any. The Manager has in place procedures for proper credit screening and monitoring of credit risk, including the use of approved counterparties with credit limits set and subject to specified financial strength criteria. Exposure against all counterparties is then monitored on a daily basis.

The Fund measures credit risk and expected credit losses using probability of default, exposure at default and loss given default, considering both historical analysis and forward looking information in determining any expected credit loss. As at 31 December 2022 and 31 December 2021, the Fund's financial assets (except portfolio of investments and/or financial derivatives) as disclosed in the Statement of Financial Position are realised within three months. Management considers the probability of default to be close to zero as the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12-month expected credit losses as any such impairment would be wholly insignificant to the Fund.

All transactions in quoted securities are settled/paid upon delivery using approved brokers. The risk of default is deemed to be low, as delivery of securities is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet its obligation.

The Fund's exposure to credit risk arises mainly from its bank balances and assets held with custodians and counterparties. The table below summarises the credit rating of banks and custodians with whom the Fund's assets are held as at reporting date.

As at 31 December 2022	Credit rating	Source of credit rating
<b><u>Bank &amp; Custodian</u></b> The Hongkong and Shanghai Banking Corp Ltd	<b>a2</b>	<b>Moody's</b>

## SCHRODER BRIC FUND

(a sub-fund of Schroder International Opportunities Portfolio)

Constituted under a Trust Deed in the Republic of Singapore on 3 January 2006

### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2022

#### 7. Financial risk management (continued)

(c) Credit risk (continued)

As at 31 December 2021	Credit rating	Source of credit rating
<b><u>Bank &amp; Custodian</u></b>		
The Hongkong and Shanghai Banking Corp Ltd	a2	Moody's

The credit rating shown is the Baseline Credit Assessment rating as published by Moody's.

The maximum exposure to credit risk at the reporting date is the carrying amount of the financial assets.

The custodian of the underlying fund is J.P. Morgan SE, Luxembourg Branch (formerly known as JP Morgan Bank Luxembourg SA) (the "underlying custodian"). As at 31 December 2022, the underlying custodian is rated A+ (2021: A+) based on the Long Term Issuer Credit rating by Standard & Poor's.

(d) Fair value estimation

The fair value of financial instruments is based on quoted market prices as at the reporting date. The quoted market price used for the underlying funds is the quoted net asset value of the underlying fund as determined by the underlying fund's administrator and the quoted market price used for other financial assets is the current bid price; the appropriate quoted market price used for financial liabilities is the current asking price.

The Fund classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices)

Level 3: Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs)

## SCHRODER BRIC FUND

(a sub-fund of Schroder International Opportunities Portfolio)

Constituted under a Trust Deed in the Republic of Singapore on 3 January 2006

### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2022

#### 7. Financial risk management (continued)

##### (d) Fair value estimation (continued)

The following table analyses within the fair value hierarchy the Fund's financial instruments measured at fair value at reporting date:

	As at 31 December 2022			Total \$
	Level 1 \$	Level 2 \$	Level 3 \$	
<b>Assets</b>				
Financial assets at fair value through profit or loss				
Collective investment scheme	<b>44,840,381</b>	-	-	<b>44,840,381</b>

	As at 31 December 2021			Total \$
	Level 1 \$	Level 2 \$	Level 3 \$	
<b>Assets</b>				
Financial assets at fair value through profit or loss				
Collective investment scheme	<b>60,877,910</b>	-	-	<b>60,877,910</b>

Investments in open-ended investment funds whose net asset value is struck daily, price information is published and readily available and units are subscribed and redeemable on demand at the published price, are classified within level 1. The quoted price for these financial instruments is not adjusted.

There are no financial instruments classified within level 2 and level 3.

Except for bank balances which are classified as level 1, the Fund's assets and liabilities not measured at fair value at reporting date have been classified as level 2. The carrying amounts of these assets and liabilities approximate their fair values as at the reporting date.

##### (e) Offsetting financial assets and financial liabilities

There were no outstanding financial assets and liabilities subject to offsetting, enforceable master netting arrangements or similar agreements as at reporting date.

## SCHRODER BRIC FUND

*(a sub-fund of Schroder International Opportunities Portfolio)*

*Constituted under a Trust Deed in the Republic of Singapore on 3 January 2006*

### NOTES TO THE FINANCIAL STATEMENTS

*For the financial year ended 31 December 2022*

---

#### 7. Financial risk management (continued)

##### (f) Capital management

The Fund's capital is represented by the net assets attributable to unitholders. The Fund strives to invest the subscriptions of units in investments that meet the Fund's investment objectives while maintaining sufficient liquidity to meet unitholder redemptions.

#### 8. Interests in unconsolidated structured entities

The Fund's investment in the Investee Fund is subject to the terms and conditions of the Investee Fund's offering documentation and is susceptible to market price risk arising from uncertainties about future values of the Investee Fund. The Manager makes investment decisions after extensive due diligence of the Investee Fund, its investment strategies and the overall quality of the Investee Fund's manager. The Investee Fund in the investment portfolio is managed by portfolio managers who are compensated by the respective Investee Fund for their services. Such compensation generally consists of an asset based fee and is reflected in the valuation of the Fund's investments in the Investee Fund.

The Fund has right to request redemption of its investments in the Investee Fund on a daily basis.

The exposure to investments in the Investee Fund at fair value is disclosed under the Statement of Portfolio. These investments are included within "Portfolio of investments" in the Statement of Financial Position.

The Fund's holding in the Investee Fund, as a percentage of the Investee Fund's total net asset value, will vary from time to time dependent on the volume of subscriptions and redemptions at the Investee Fund level. It is possible that the Fund may, at any point in time, hold a majority of an Investee Fund's total units in issue.

The Fund's maximum exposure to loss from its interests in the Investee Fund is equal to the total fair value of its investments in the Investee Fund.

Once the Fund has disposed of its shares in the Investee Fund, the Fund ceases to be exposed to any risk from it.

## SCHRODER BRIC FUND

(a sub-fund of Schroder International Opportunities Portfolio)

Constituted under a Trust Deed in the Republic of Singapore on 3 January 2006

### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2022

#### 9. Related party disclosure

The Manager of the Fund is Schroder Investment Management (Singapore) Ltd. The Trustee is HSBC Institutional Trust Services (Singapore) Limited. The Registrar for the Fund is The Hongkong and Shanghai Banking Corporation Limited. Both Trustee and Registrar are subsidiaries of the HSBC Group. The management fees payable by the Fund to the Manager is currently waived by the Manager. The registration fees payable by the Fund to the Registrar has been waived by the Registrar. The trustee fees and valuation fees charged by the HSBC Group are shown in the Statement of Total Return.

As at reporting date, the Fund maintained with the HSBC Group, the following bank balances:

	2022 \$	2021 \$
Current accounts	<u>518,390</u>	<u>672,864</u>

#### 10. Financial ratios

	2022	2021
Expense ratio <sup>1</sup> (excluding underlying fund's unaudited expense ratio)	0.13%	0.11%
Expense ratio <sup>2</sup> (including underlying fund's unaudited expense ratio)	1.96%	1.94%
Turnover ratio <sup>3</sup>	-	0.32%

<sup>1</sup> The expense ratio has been computed based on the guidelines laid down by the Investment Management Association of Singapore ("IMAS"). The calculation of the expense ratio was based on total operating expenses divided by the average net asset value for the year. The total operating expenses do not include brokerage and other transaction costs, interest expense, distribution paid out to unitholders, foreign exchange gains/losses, front or back end loads arising from the purchase or sale of other funds and tax deducted at source or arising out of income received. The Fund does not pay any performance fee. The respective values used in the calculation of the expense ratio are disclosed below. The average net asset value is based on the daily balances.

## SCHRODER BRIC FUND

(a sub-fund of Schroder International Opportunities Portfolio)

Constituted under a Trust Deed in the Republic of Singapore on 3 January 2006

### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2022

#### 10. Financial ratios (continued)

Expense ratio calculations	2022	2021
	\$	\$
Total operating expenses	63,222	81,646
Average net asset value	49,930,907	72,393,447

<sup>2</sup> The expense ratio is the sum of the Fund's expense ratio and the underlying fund's unaudited expense ratio. The unaudited expense ratio of the underlying fund, a Luxembourg domiciled fund, is obtained from Schroder Investment Management (Europe) SA. There is no requirement for the expense ratio of this Luxembourg domiciled fund to be published or audited.

<sup>3</sup> The portfolio turnover ratio is calculated in accordance with the formula stated in the Code on Collective Investment Schemes. The calculation of the portfolio turnover ratio was based on the lower value of purchases or sales of the underlying investments divided by the average daily net asset value.

Turnover ratio calculations	2022	2021
	\$	\$
Lower of purchases or sales	- (purchases)	234,826 (purchases)
Average net asset value	49,930,907	72,393,447

#### 11. Subsequent events

Pursuant to the notice dated 17 January 2023, the legal entities name for the Fund and the underlying fund for Schroder BRIC Fund and Schroder International Selection Fund BRIC (Brazil, Russia, India, China) will be changed to Schroder BIC Fund and Schroder International Selection Fund BIC (Brazil, India, China) respectively with effect from 18 April 2023.

## REPORT TO UNITHOLDERS

31 December 2022

The following is a report on the Schroder BRIC Fund (the "Fund"):

1. The only security holding of the Fund as at 31 December 2022:

	Fair value \$	Percentage of total net assets attributable to unitholders %
Schroder Intl Selection Fund - BRIC (Brazil, Russia, India, China) A Accumulation Share Class	44,840,381	98.93

The only security holding of the Fund as at 31 December 2021:

	Fair value \$	Percentage of total net assets attributable to unitholders %
Schroder Intl Selection Fund - BRIC (Brazil, Russia, India, China) A Accumulation Share Class	60,877,910	98.97

The Fund was not invested in other unit trusts, mutual funds or collective investment schemes as at 31 December 2022 other than as stated in the Statement of Portfolio.

2. The Fund did not have any exposure to financial derivatives as at 31 December 2022.
3. The Fund did not have any borrowings as at 31 December 2022.
4. The amount of subscriptions and redemptions in the period 1 January 2022 to 31 December 2022 were as follows:

	\$
Subscriptions	1,130,783
Redemptions	3,056,508
