## Schroder International Selection Fund Emerging Markets Debt Absolute Return

A Distribution SGD Hedged | Data as at 30.04.2023

### Fund objectives and investment policy

The fund aims to provide an absolute return of capital growth and income after fees have been deducted by investing in bonds in emerging markets. Absolute return means the fund seeks to provide a positive return over a 12 month period in all market conditions, but this cannot be guaranteed and your capital is at risk.

This fund may use financial derivative instruments as a part of the investment process. Derivatives carry a high degree of risk and should only be considered by sophisticated investors.

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR).

The fund maintains a higher overall sustainability score than its sustainability benchmark based on the investment manager's rating system. **Past Performance is not a guide to future performance and may not be repeated. The value of investments and the income from them may go down as well as up and investors may not get back the amounts originally invested. Exchange rate changes may cause the value of investments to fall as well as rise. Performance data does not take into account any commissions and costs, if any, charged when units or shares of any fund, as applicable, are issued and redeemed.**

### Performance over 5 years (%)

**Past performance and any forecasts are not necessarily a guide to the future or likely performance.**

**The value of investments and income from them can go down as well as up and is not guaranteed.** The distributions are not guaranteed. Ordinarily, they will be reviewed annually. In the event of the Fund's income and realised gains being less than indicated distribution amount per unit per annum, distributions will be made from capital. Investors should be aware that the distributions may exceed the income and realised gains of the Fund at times and lead to a reduction of the amount originally invested, depending on the date of initial investment. Where 'since inception' performance figures are stated, please note that the inception date is the same as the share class launch date under 'Fund Facts'.

### Benchmark and corporate action information

The fund's performance should be assessed against its objective of providing a positive return over a 12-month period in all market conditions. The target benchmark has been selected because the target return of the fund is to deliver the return of that benchmark as stated in the investment objective. The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the fund. This fund aims to achieve an absolute return and is therefore not managed to a specific benchmark. Benchmark names in this document may be abbreviated. Please refer to the funds' legal documents for the full benchmark name. With effect from 01.06.2008 Schroder ISF Emerging Markets Debt changed its name to Schroder ISF Emerging Markets Debt Absolute Return.
