Fund objectives and investment policy

The fund aims to provide income and capital growth in excess of the FTSE EPRA NAREIT Developed Index (Net TR, USD) after fees have been deducted over a three to five year period by investing in equities of real estate companies worldwide and which the investment manager deems to be sustainable investments.

This fund may use financial derivative instruments as a part of the investment process. Derivatives carry a high degree of risk and should only be considered by sophisticated investors.

The Fund has the objective of sustainable investment (within the meaning of Article 9 SFDR).

This means that the fund invests at least 75% of its assets in sustainable investments within the meaning of SFDR. **Past Performance is not a guide to future performance and may not be repeated. The value of investments and the income from them may go down as well as up and investors may not get back the amounts originally invested. Exchange rate changes may cause the value of investments to fall as well as rise. Performance data does not take into account any commissions and costs, if any, charged when units or shares of any fund, as applicable, are issued and redeemed.**

Benchmark and corporate action information

The full track record of the previous index has been kept and chain linked to the new one. The fund's performance should be assessed against its target benchmark, being to exceed the FTSE EPRA NAREIT Developed index (Net TR, USD). The fund's investment universe is expected to overlap materially with the components of the target benchmark. The investment manager invests on a discretionary basis and there are no restrictions on the extent to which the fund's portfolio and performance may deviate from the target benchmark. The investment manager will invest in companies or sectors not included in the target benchmark in order to take advantage of specific investment opportunities. The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the fund. The target benchmark has been selected because it is representative of the type of investments in which the fund is likely to invest and it is, therefore, an appropriate target in relation to the return that the fund aims to provide. On 21.06.2021 the FTSE EPRA NAREIT Developed index (Net TR, USD) replaced the US Consumer Price index plus 3%. Benchmark names in this document may be abbreviated. Please refer to the funds' legal documents for the full benchmark name. On 01.12.2016, the fund, previously named Schroder ISF Global Property Securities, changed its name to Schroder ISF Global Cities Real Estate. On 21.06.2021 Schroder ISF Global Cities Real Estate changed its name to Schroder ISF Global Cities.
