

Schroders Schroder International Selection Fund Hong Kong Equity

A Accumulation HKD | Data as at 30.04.2023

Fund objectives and investment policy

The fund aims to provide capital growth in excess of the FTSE Hong Kong (Net TR) Index after fees have been deducted over a three to five year period by investing in equities of companies listed on the Hong Kong Stock Exchange.

This fund may use financial derivative instruments as a part of the investment process. Derivatives carry a high degree of risk and should only be considered by sophisticated investors. **Past Performance is not a guide to future performance and may not be repeated. The value of investments and the income from them may go down as well as up and investors may not get back the amounts originally invested. Exchange rate changes may cause the value of investments to fall as well as rise. Performance data does not take into account any commissions and costs, if any, charged when units or shares of any fund, as applicable, are issued and redeemed.**

Past performance and any forecasts are not necessarily a guide to the future or likely performance.

The value of investments and income from them can go down as well as up and is not guaranteed. The distributions are not guaranteed. Ordinarily, they will be reviewed annually. In the event of the Fund's income and realised gains being less than indicated distribution amount per unit per annum, distributions will be made from capital. Investors should be aware that the distributions may exceed the income and realised gains of the Fund at times and lead to a reduction of the amount originally invested, depending on the date of initial investment. Some performance differences between the fund and the benchmark may arise as the benchmark returns are not adjusted for non-dealing days of the fund. Where 'since inception' performance figures are stated, please note that the inception date is the same as the share class launch date under 'Fund Facts'.

Benchmark and corporate action information

The fund's performance should be assessed against its target benchmark being to exceed the FTSE Hong Kong (Net TR) index and compared against the Morningstar Hong Kong Equity Category. The fund's investment universe is expected to overlap to a limited extent with the components of the target benchmark. The comparator benchmark is only included for performance comparison purposes and does not have any bearing on how the investment manager invests the fund's assets. The investment manager invests on a discretionary basis and is not limited to investing in accordance with the composition of the target benchmark. The investment manager will invest in companies or sectors not included in the target benchmark in order to take advantage of specific investment opportunities. The target benchmark has been selected because it is representative of the type of investments in which the fund is likely to invest and it is, therefore, an appropriate target in relation to the return that the fund aims to provide. The comparator benchmark has been selected because the investment manager believes that the benchmark is a suitable comparison for performance purposes given the fund's investment objective and policy. The Schroder ISF Hong Kong Equity fund was launched to accommodate a transfer of shareholders from the Schroders range of Hong Kong unit trusts to the Schroder ISF SICAV. On 03.07.2017 the FTSE Hong Kong Net replaced the 90% FTSE AW HK - Hong Kong Net, 10% HSBC. The full track record of the previous index has been kept and chainlinked to the new one. Benchmark names in this document may be abbreviated. Please refer to the funds' legal documents for the full benchmark name.
