What Are the Key Risks?

The value of shares in the Fund and income received from it can go down as well as up and investors may not get back the full amount invested. Performance may also be affected by currency fluctuations. Currency fluctuations may affect the value of overseas investments. The Fund seeks to achieve its targeted investment objective by allocating its assets across multiple "alternative" strategies and by investing in a wide range of assets. Such assets and investment instruments have historically been subject to price movements due to such factors as general stock market volatility, sudden changes in interest rates, or fluctuations in commodity prices. The Fund will seek to limit volatility using hedged strategies. As a result, the performance of the Fund can fluctuate moderately over time. Other significant risks include: credit risk, foreign currency risk, derivative instruments risk, liquidity risk, multi-manager risk. For full details of all of the risks applicable to this Fund, please refer to the "Risk Considerations" section of the Fund in the current prospectus of Franklin Templeton Investment Funds.

Important data provider notices and terms available at www.franklintempletondatasources.com.

The Fund can use derivatives for hedging, efficient portfolio management and/or investment purposes.

Performance: Performance details provided are in the share class currency, based on NAV-NAV and include reinvested dividends. Performances of different share classes will vary. Please refer to the Fund Manager for more information.

References to indices are made for comparative purposes only and are provided to represent the investment environment existing during the time periods shown. When performance for either the portfolio or its benchmark has been converted, different foreign exchange closing rates may be used between the portfolio and its benchmark.

Charges: The charges are the fees the fund charges to investors to cover the costs of running the Fund. Additional costs, including transaction fees, will also be incurred. These costs are paid out by the Fund, which will impact on the overall return of the Fund. Fund charges will be incurred in multiple currencies, meaning that payments may increase or decrease as a result of currency exchange fluctuations.

Benchmarks provided for additional performance comparison are for informational purposes only; the fund manager does not intend for the portfolio to track them. The Bank of America Merrill Lynch 3-Month US Treasury Index is provided as an Absolute Return benchmark. The HFRX Global Hedge Fund Index represents a measure of a broad universe of hedge fund strategies.

The share class shown has adopted a hedging strategy intended to reduce the effect of exchange rate movements between the currency of the Fund's investment strategy and the currency of the share class. The benchmark returns displayed are shown in the reference currency of the Fund's investment strategy (USD), while share class returns are shown in the reference currency of share class (SGD). As a result, the returns shown above reflect the effect of the hedging strategy and one can compare the returns of the Fund (net of fees) relative to its benchmark index without the impact of exchange rate movements on index returns.

Strategy Allocation: Actual Allocation is a percentage of invested capital into fund managers (sub- advisors or co-managers) as of the end of the period. Target Allocations are as of the end of the period.

The Fund may shift allocations among strategies at any time. Further, K2 may determine in its sole discretion to not allocate to one or more of the strategies and/or to add new strategies. Accordingly the above target allocations are presented for illustrative purposes only, and should not be viewed as predictive of the ongoing composition of the fund's portfolio (and its managers), which may change at any time.

Weightings as percentage of invested capital into fund managers (sub-advisors or co-managers). Holdings are subject to change. Due to rounding, the strategy breakdown may not equal 100%.

Portfolio Exposure:

Gross Exposure: Gross exposure is the sum of the absolute value of all exposures, directly or through derivatives, as a percentage of total assets. The sum of the percentage of long positions and short (in absolute terms) positions.

Net Exposure: Net exposure is the sum of the total value of all exposures, directly or through derivatives, as a percentage of total assets. The percentage value of the long positions less the percentage value of the short positions.

Long Exposure: Sum of the long exposures, directly or through derivatives, as a percentage of total assets.

Short Exposure: Sum of the short exposures, directly or through derivatives, as a percentage of total assets.

After Sales Charge*: Calculated based on initial sales charge of 5%; or 0% for Money Market Funds.

Performance Benchmarks: Effective 1 November 2021, the Fund's benchmark is Euro Short-Term Rate (ESTR). The Linked Euro Short-Term (ESTR) performance shown is derived from a combination of the ICE LIBOR 3-Month (EUR) Index from the Fund's inception to 31st October 2021 and Euro Short-Term Rate (ESTR) thereafter. Benchmarks provided for additional performance comparison are for informational purposes only; the fund manager does not intend for the portfolio to track them. The ICE BofA US 3-Month Treasury Bill Index is provided as an absolute return benchmark. The HFRX Global Hedge Fund Index represents a measure of a broad universe of hedge fund strategies.

Top Exposures: The Top Five Long and Short Exposures represent the five largest long and short equity issuer exposures of Franklin K2 Alternative Strategies Fund as of the date indicated. Issuer exposures include actual security holdings and single security exposures obtained through the use of derivatives. Direct security holdings and derivatives exposures are combined for calculation purposes. These direct holdings and derivatives do not represent all of the securities purchased, sold or recommended for advisory clients, and the reader should not assume that investment in securities of the issuers listed was or will be profitable.

Composition of Fund:

Manager Allocation: Manager allocation includes managers that have been appointed as sub-advisors or managers of investment funds. K2 may determine in its sole discretion to not allocate to one or more of the managers and/or to add new managers. Accordingly, the manager allocation is presented for illustrative purposes only, and should not be viewed as predictive of the ongoing composition of the Fund's portfolio, which may change at any time.

Weightings as percent of invested capital into fund managers (sub-advisors or co-managers). Percentage may not total 100% due to rounding. Information is historical and may not reflect current or future portfolio characteristics. All portfolio holdings are subject to change.
