Further Information

Refer to “Investment Objective, Policy and Strategy” of the Singapore Prospectus for further information on product suitability.

KEY PRODUCT FEATURES

WHAT ARE YOU INVESTING IN?

- You are investing in a sub-fund of BlackRock Global Funds (“BGF”).
- BGF is an open-ended investment company incorporated in Luxembourg and its home regulator is the Commission de Surveillance du Secteur Financier (“CSSF”).
- Non-Distributing Shares do not pay dividends whereas Distributing Shares pay dividends.
 - o For Distributing (G), (R), (S), (T) and (Y) Shares (if available): (i) dividends may come from capital of the Fund; (ii) this may reduce capital and the potential for capital growth of the Fund, and (iii) similar to other Distributing Shares, there is no guarantee of payout and the dividends may rise or fall.

Refer to “The Company” and “The Funds” of the Singapore Prospectus for further information on features of the product.

¹ The Prospectus is available for collection at the offices of the Singapore Representative during normal business hours or accessible at www.blackrock.com/sg.

Investment Strategy

- The Fund seeks to maximise total return by investing at least 70% of its total assets in the equity securities of companies globally whose predominant economic activity comprises the research, development, production and/or distribution of technologies used and applied to transport. The Fund will focus on companies that generate revenues from the transition to renewable energy such as electric, autonomous and/or digitally connected vehicles.
- In normal market conditions the Fund will invest in a portfolio of equity securities of companies with large, medium and small market capitalisation that are involved in activities including the following: raw materials (e.g. metals and battery materials), components and computer systems (e.g. batteries and cabling), technology (e.g. vehicle sensor technology) and infrastructure (e.g. vehicle battery charging stations). The companies are rated by the Investment Adviser based on their ability to manage the risks and opportunities associated with renewable energy and their ESG risk and opportunity credentials, their ability to strategically manage longer-term issues surrounding ESG and the potential impact this may have on a company's financials. The assessment of the level of engagement in each activity may be based on percentage of revenue, a defined total revenue threshold, or any connection to a restricted activity regardless of the amount of revenue received.
- The Fund adopts a "best in class" approach to sustainable investing, i.e. the Fund selects the best issuers (from an ESG perspective) for each relevant sector of activities (without excluding any sector of activities). More than 90% of the issuers of securities the Fund invests in are ESG rated or have been analysed for ESG purposes.
- Although it is likely that most of the Fund's investments will be in companies located in developed markets globally, the Fund may also invest in emerging markets.
- The Fund may invest directly up to 20% of its total assets in the People's Republic of China by investing via the Shanghai-Hong Kong Stock Connect and/or the Shenzhen-Hong Kong Stock Connect.
- The Fund's exposure to contingent convertible bonds is limited to 5% of its total assets.
- The Fund may use derivatives for investment purposes and for the purposes of efficient portfolio management. Any ESG rating or analyses referenced above will apply only to the underlying securities of derivatives used by the Fund.

Refer to "Investment Objective, Policy and Strategy" and "Use of Derivatives and Securities Lending" of the Singapore Prospectus for further information on investment strategy.

Parties Involved

WHO ARE YOU INVESTING WITH?

- The Management Company is BlackRock (Luxembourg) S.A.
- The Management Company has delegated its investment management function of the Fund to one or more investment advisers within the BlackRock Group who may sub-delegate some of its/their functions to one or more sub-advisers within the BlackRock Group (each as listed in paragraph 3.2 of the Singapore Prospectus).
- The Depositary is The Bank of New York Mellon SA/NV, Luxembourg Branch.
- The Singapore Representative is BlackRock (Singapore) Limited.

Refer to "The Company", "Management and Administration" and "Other Parties" of the Singapore Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.

KEY RISKS

WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

The price of Shares of the Fund and any income from them may fall as well as rise.

These risk factors may cause you to lose some or all of your investment.

Refer to "Risk Factors" of the Singapore Prospectus for further information on risks of the product.

Market and Credit Risks

- **The Fund may be subject to Equity Risks**
 - o The values of equities fluctuate daily and can be influenced by many factors including issuer-specific factors and broader economic and political developments.

Liquidity Risks

- Trading volumes in the underlying investments of the Fund may fluctuate significantly, due to factors including market development, market sentiment or regulatory/government intervention. An inability to readily sell investments at the desired time or price may negatively impact the Fund.
- Redemptions may be suspended in certain circumstances detailed in the Prospectus.

Product-Specific Risks

- **The Fund may be subject to Derivatives Risks**
 The use of derivatives may expose the Fund to a higher degree of risk. Derivative contracts can be highly volatile and a relatively small market movement may have a potentially larger impact on derivatives than on standard bonds or equities. Leveraged derivative positions can hence increase the Fund's volatility. The Fund may sustain loss as a result of the failure of a derivatives counterparty to comply with the terms of the derivatives contract.

VALUATIONS AND EXITING FROM THIS INVESTMENT

HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Class A and Class D Shares for the previous dealing day may be obtained from the Singapore Representative or an appointed Singapore distributor and will also be published on www.blackrock.com/sg.

Refer to "Obtaining Price Information" and "Redemptions" of the Singapore Prospectus for further information on valuation and exiting from the product.

HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

- The Fund does not offer a cancellation period to investors.
- You may request to redeem your shares on any Dealing Day.
- Redemption proceeds are determined as follows:
 - o Redemption requests received, through the Investor Servicing Team or appointed Singapore distributors or otherwise, by the Transfer Agent by 6:00 pm (Singapore time)⁴ on any Dealing Day, will be accepted for that day's dealing.
 - o Redemption requests received by the Transfer Agent after this cut-off will be accepted for dealing on the next available Dealing Day.
- An example of how the gross redemption proceeds are calculated is as follows:

"Dealing Day" means any Luxembourg business day on which the Fund is open for dealing.

1,000 Shares	X	USD 1.50 ⁵	=	USD 1,500
Redemption request		Net Asset Value per Share		Gross Redemption proceeds

- Redemption payments will normally be dispatched on the third Luxembourg business day after the relevant dealing day.
